PARENTING TIP OF THE MONTH - Parenting Tip - Frenemies is a term used to describe a relationship where people are friendly but share an underlying dislike or rivalry. Unfortunately, sibling relationships can often end up in this category. As far back as Cain and Abel we see sibling rivalry impacting relationships. Parents can prevent sibling rivalry by remembering the following: allow each child to develop different interests; praise each child equally for their different gifts and talents; spend individual time with each child; refrain from taking sides in an argument but help children to work it out between themselves; engage in fun family activities together; pray for each other by name. Parents can indeed help reduce the amount of sibling rivalry in their children's lives and help them to find love and support from their siblings that can last a lifetime.
